

- ◆ Easy Use
- ◆ Flexible
- ◆ Cost Effective

Highly Integrated System

Including everything you need:

- [Instrument and chips](#)
- Oil and other reagents
- [Highspeed Imaging](#)

Flexible Control Mode

- Pressure control
- [Flowrate control](#)
- Precise pressure flow control

High Performance & Efficiency

- Mono-disperse droplet
- Low size CV
- Easy setup, plug and play

Scalable Throughput

- Small volume test
- High volume production

Cost Effective

- Affordable configurations
- Low cost solutions

Custom Design & OEM

- Research collaboration
- Custom design
- OEM & Contract manufacturing

Applications

- Cell encapsulation
- Single cell analysis
- Hydrogel synthesis
- Single emulsion
- Double emulsion
- Polymer synthesis
- Drug delivery
- Cell culture
- Digital PCR
- Foams

Catalog #	Name
PG-DG-8-HSV	System w. iFlow Touch™ controller and high speed imaging
PG-DG-8	System w. iFlow Touch™ controller
PG-DG-LT2	System w. iFlow Light™ controller
